The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/525,366	Applicant(s) MIRANDA ET AL.	
	Examiner Kamal A. Saeed	Art Unit 1626	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-7 are currently pending in this application.

Priority

This application is a 371 of PCT/BR02/00152 filed November 13, 2002, which claims priority under 35 U.S.C. 119 BRASIL PI 0203534-0 filed September 06, 2002.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-7 are vague and indefinite. The use of the phrases “among others” and “such as”, in reference to the alloys render the scope of the claims indefinite. It is not clear what is included and what is excluded. It is suggested to delete these terms.

Claims 1-7, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-3 and 5 are vague and indefinite. The format “Niobium-Based Compositions and Coating, Niobium Oxides and Their Alloys Applied by Thermal Spraying” render the claims indefinite. It is not clear whether this is a title of a book or it is a product claim. Applicants need to avoid the use of capital letters and apostrophes except in their proper format. It is suggested that applicant amend the claims to their proper format.

Claims 1-7, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites “a granulometry of -180 to 45 μm . The use of the negative number in reference to a particle is rendering the claims indefinite because a particle must have an extent greater than zero.

Claims 4, 6 and 7 provides for the “use of as anticorrosive”, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 4, 6 and 7 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
